Listening: 29

Select Continue to go to the next question.

Writing Based on Knowledge and Experience Directions

For this task, you will write an essay in response to a question that asks you to support your opinion on an issue. A clock that is provided during the test will show how much time you have to write and revise your essay.

Typically, an effective essay will contain a minimum of 300 words. Your essay will be judged on the quality of your writing. This includes the development of your ideas, the organization of your essay, and the quality and accuracy of the language you use to express your ideas.

- Use specific reasons and examples to support your response.
- Be clear and concise in your writing. Do not use memorized reasons or examples.
- Responses that include memorized text will receive a lower score.

If you finish your essay before time is up, you may select **Next** to go on to the next task.

Select **Continue** to go on.

Writing Based on Reading and Listening Directions

For this task, you will read a passage about an academic topic. A clock at the top of the screen will show how much time you have to read. You may take notes on the passage. After the reading time ends, the passage will then be removed and you will listen to a lecture about the same topic. While you listen, you may take notes.

Then you will write an essay in response to a question that asks you about the relationship between the lecture you heard and the reading passage. Try to answer the question as completely as possible using information from the reading passage and the lecture. The question may ask you to express your personal opinion. You **will** be able to see the reading passage again when it is time for you to write your response. You may use your notes to help you answer the question. A clock at the top of the screen will show how much time you have to write your response.

Typically, an effective response will be 150 to 225 words. Your response will be judged on the quality of your writing and on the completeness and accuracy of the content. If you finish your response before time is up, you may click on **Next** to go on to the second writing task.

Now you will see the reading passage again. It will be available to you again when you write your response. Immediately after the reading time ends, the lecture will begin, so keep your headset on until the lecture is over.

(Select **Continue** at any time to dismiss these directions.)

Writing

Writing Section Directions

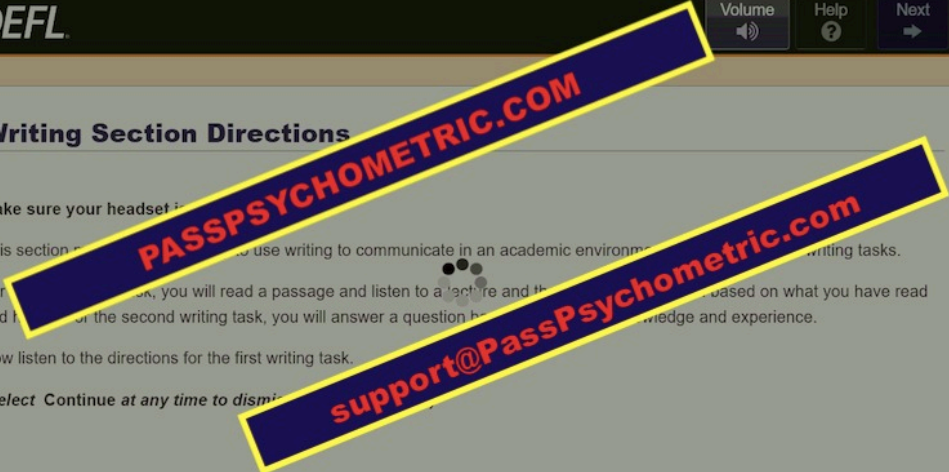

Make sure your headset is on and working.

This section tests your ability to use writing to communicate in an academic environment. It includes two writing tasks.

For the first writing task, you will read a passage and listen to a lecture and then write based on what you have read and heard. For the second writing task, you will answer a question based on your own knowledge and experience.

Now listen to the directions for the first writing task.

(Select Continue at any time to dismiss this message.)

Speaking | Question 1 of 4

Some people believe it is important to spend most of their time around other people. Others believe it is important to spend time alone. Which do you agree with? Why, using specific examples from your own life or the life of someone you know.
